REPORT OF THE SCHOOL BOARD.

To the citizens of the town of Gilford the School Board submits the following report of the schools in the town district :

There has been the same number of schools as last year. In Nos. 4 and 7 only one term has been held, while in nine others two terms of nineteen weeks have been held. The high school had a term of twelve weeks, taught by D. C. Bliss, a successful teacher ; this is the third year that we have had his services. Several new teachers have been employed : Miss Ratia A. Collins, first term in No. 1, and Miss Susie M. Eaton, second term ; Miss Madge F. Whitten in No. 2 ; Miss Gertrude E. Foss in No. 3 ; Miss Julia A. Eaton in No. 4 ; Miss Jennie P. Tucker, second term in No. 5 ; Miss Minnie A. Maloon, second term in No. 8 ; Miss Lizzie E. Weeks, first term in No. 9 ; Miss Leonora S. Maloon in No. 10,— most of them teachers of experience, while all have labored earnestly and successfully for the interest of their schools. Our schools as a whole have made good advancement the past school year.

Repairs have been made in Nos. 7 and 9 ; houses have been painted and new seats and desks have been put in for both houses.

The schoolhouse in No. 8 we did not consider suitable for the fall term of school and engaged the town house for the fall term and for the high school. A new schoolhouse is very much needed in No. 8, and we hope that steps may be taken to build this season.

STEPHEN S. AYER,
WILLIAM H. WEEKS,

School Board.

March, 1892.

SCHOOL REPORT; DISTRICT NO. 13.

The length of the school year has gradually grown from twenty-nine to about thirty-four weeks, and is the same in all grades. The conditions of the school work in town now admit and seem to require a further increase to thirty-six weeks as a minimum in the primary grades, and a somewhat longer term in the other schools. In a manufacturing town like ours regard must be had to the fact that not all the pupils can be in attendance through the year, yet we think this change can be made without great additional expense, and upon a plan that would in no way inconvenience the pupils or the patrons of the schools.

There has been no material change in the enrollment of pupils, except that naturally due to the moving about of many families. Irregularity of attendance in some rooms, on account of the prevailing epidemic, has been a hindrance to good class work, but was unavoidable. In some other cases the staying out of school every few days springs from a thoughtlessness and indifference, the evil effects of which, on the offender and his classmates, are too little understood. The proper corrective influence, begun at the family fireside, can be readily strengthened by the teacher's kindly guidance in the schoolroom.

The quality and amount of work in some of the schools has been in advance of that of former years. The teachers have generally been doing their work earnestly and intelligently, though in the same grades it has not all been equally good. Special attention is being given to reading, writing, language, and number work, the essentials of all lower class work. In most of the schools the children are quick at figures, and in some, quite accurate. It is only by long continued practice that the latter quality can be attained.

The children are making progress in reading. They soon master the matter found in a single book, and variety is sought by supplementary reading from other sources. Language work is the outgrowth of the reading lesson, and practical drill is given in a variety of forms.

Music and drawing have been part of the course in those rooms in which the subjects could be introduced to the best advantage. We think the custom in many towns of having a special teacher is a good one. One or two lessons a week could be given in all the schools, and then instruction in these subjects can be carried along by the regular teacher. We hope to see the work under this plan begun next term.

Two of the school buildings are in good condition, but a moderate outlay will have to be made on the premises and buildings at Washington and at Pear streets the coming year. The location, size of grounds, and surroundings of the former leave but little to be desired. The yard, however, needs grading, and a walk should be laid from the street line to the building. New floors are necessary in the main hallway and schoolrooms, while the present uncomfortable double desks, placed in the building thirty years ago, should be changed for single desks of proper size. Single seats have been placed in all the buildings except this one within three or four years. Reference was made a year ago to the condition of things at Pear street, and we expect to see some action taken this year to remedy the existing evils. The cost of making these changes is not great, and our citizens have a personal interest in seeing these improvements carried forward to completion.

Respectfully submitted.

JOHN ALDRICH,
C. L. PULSIFER,
W. H. JONES,

Board of Education.
